Contacts:	BG (Ret) Gary Harber President, Broadband Technology Corp. (806) 698-0396 gharber@broadbandtechnologycorp.com
Company:	BTC develops and migrates partnered training content into a managed online eLearning platform, available 24/7 worldwide and fitted to local culture/needs. Our Electronic Training Management System (eTMS) assesses training needs, produces Individualized Training Plans, and enables tracking and compliance monitoring. Hosted internally or externally, BTC's turnkey solution includes hardware, software, connectivity, content, advisory services, on-site support, and 24 hour helpdesks for technical and content support. Our keystone is the consortium of training, medical and educational institutions that can provide on-line course content that will be delivered to the Technology Package.
Management:	Ray Capp , CEO Gary Harber , President/Chmn Leah Gilliam , Project Manager
Markets:	Armed Forces; government; private for-profit and non-profit entities.
Differentiation	Founded by retired officers and veterans, BTC's proprietary on-line content platform is <i>designed for the needs of the Armed Forces</i> . The ability to utilize satellite up and downlink, commercial communications and bandwidth capability is unique and not offered by other content providers. BTC's system can cost-effectively reformat existing training content (videotape, audiocassette, CD/DVD, stand up with workbook, etc.) into accessible, accountable, reliable, consistent and effective online training.
Capabilities:	Courses are developed with synchronized video, text and outlines allowing start / stop / return, bookmarking, note taking, review and test taking. Downloadable (available offline), easily updateable, easy to use – and no travel required. Fully compliant with the standard ISO-9001:2000-6.2.2 and ISO-14001:1996-4.4.2. New Internet Service (ISP) can be established at new locations with gigabit Ethernet network connection, voice over IP, wireless connectivity, computer systems integration consulting services, investigative assessments and services.
Content Partners:	Current content partners include experts in fields regulated by DOD, EPA, OSHA, and DOT. Particular expertise is in Health and Safety, Family Support, Hazardous Materials/Waste (including Asbestos, lead, etc.), Endangered Species, Transportation of Ammunition and Explosives, Storage and Handling of Petroleum Products, Spill Containment Planning, and Emergency Response.
Specs:	GSA Schedule no: GS-35F-0813M for FSS Group 70, Sin 132-51 for Info. Tech. Services NAICS 541512. Registered with Central Contractor Registration Database. DUNS No: 02-169-3606. TIN: 62-1854471. CAGE Code: 1T5G6.
